EDUCATION

B.Tech. in Computer Science Engineering & Cybersecurity, 7.89

July 2021 - July 2025

Lakshmi Narain College of Technology & Science, Bhopal

83.4% in 12th, Saraswati H. S. School, Katni

June 2021

84.2% in 10th, Saraswati H. S. School, Katni

June 2019

SKILLS

Programming Languages: Java, Python (Basic), Shell

Development Languages: HTML5, CSS3, JavaScript

Libraries/Frameworks: Bootstrap

Tools/Platforms: Burp Suite, Metasploit, Nmap, Linux

Soft Skills: Leadership, Communication, Time Management

PROJECTS

The Chrome Extension PassGenie : Secure Password Generator

Personal Project | Web Development & Cybersecurity

Overview : Developed PassGenie, a lightweight Chrome extension that allows users to generate strong, custom passwords effortlessly, with a strong focus on privacy and user experience.

- **Customizable Passwords :** Users can select password length and character types (uppercase, lowercase, numbers, symbols).
- **Privacy-Focused :** All generation happens locally in the browser—no data is stored or sent.
- **Lightweight & User-Friendly:** Clean interface with fast, one-click generation designed for everyday use.
- **Learning Outcome :** Gained practical experience in browser extension development, frontend design, and implementing privacy-aware features.

Web App for Real-Time Pose Detection

Personal Project | Machine Learning & Frontend Development

Overview : Created a real-time web application that classifies body poses using a webcam feed and a pre-trained Teachable Machine model, all processed locally for speed and privacy.

- **Live Pose Recognition :** Real-time classification using a pre-trained ML model integrated with the webcam.
- **Fully Local Processing :** Ensures user privacy by handling all data on the client side.
- **Responsive UI :** Mobile-friendly interface built with HTML, CSS, and Bootstrap.
- **Learning Outcome :** Improved skills in client-side ML integration, performance optimization, and building accessible, privacy-respecting web apps.

ACHIEVEMENTS

- TryHackme **Junior Pentester**
- 5 Star in Java at **HackerRank**
